

## Rhinoceros Teacher Eater

I arrived at school one day and not a single teacher could be found. A rhinoceros had bashed through the school earlier and the buildings looked a bit misshapen...ok, a lot misshapen. I walked around the school for a little while and when I got to the Grade 2 playground I came across a yawning, burping, sleeping rhinoceros on top of the playground equipment! I felt like this rhinoceros was a criminal and this was a crime. I saw its belly bulging all around the place and whispers of "help" and "let me out" could be heard. The rhinoceros couldn't sleep anymore...because of the belly of course. Then, it charged at me.. I grabbed two giant sticks as quickly as I could and without a breath I charged back. Straight away I shoved one of the sticks in its mouth and at the same time I poked the other stick in its belly and it groaned. Mumbled of "ow" and "I feel somebody could be saving us" could be heard and after that all the teachers, parents and children came out.
