

Everyone Belongs

The world is full differences
And differences make us strong
But we can be stronger
If we learn to get along

Harmony day joins us together
With friends from overseas
So we can be friends forever
And have peace for eternity

The world is full of people
These people deserve peace,
But instead they get wars
And famines instead of feasts

Please free these starving people
Help them raise their hopes
So we can declare peace
Instead of leaving them to mope

Everyone deserves to belong
So let's all make a stand
Let's all sing a merry song
While standing hand in hand
