## THE FUTURE FOR OUR CHILDREN

### Preparing Young People for Work and Life

What are we doing to our young people? It's an amazing world out there, and all we do is tell them how awful it's going to be up ahead. Yet the future is not just something that happens to us. It's something we create with the actions we take today. This powerful and entertaining session from an education futurist will explain what form those actions can take. Get ready to hear about a possible future of work and life that may be dramatically different to the world of today.
