

## ENRICHMENT NEWS

The Christmas Ornament Competition is generating a lot of interest. Some children have spent some time in the lab getting familiar with the Tinkercad program. To help them along, it is recommended they set up their own account and have a play at home. To keep things easy and to prevent any loss of time for authorisation, it is best to set up the account using **your** email and **your** personal details. I have attached the instructions below. It should be fairly straight forward.

[www.tinkercad.com](http://www.tinkercad.com)

I will be holding lunch time sessions Tuesday and Wednesday first break.

## ICAS Maths Results

Sorry for the delay but the package went MIA with Australia Post. The results will be sent home with the children early next week.

Mrs Kempf

## STEP ONE

[www.tinkercad.com](http://www.tinkercad.com)

Click on Start Tinkering now

## 2. Create your account

a. Complete this

b. Complete this

## 3. Your account is done! Happy Tinkering!!!
