

Queensland Academy
for Science Mathematics
and Technology

Welcome to the Queensland Academy for Science, Mathematics & Technology!

The Queensland Academy for Science Mathematics & Technology (QASMT) is a state school for highly-capable students in Years 7 to 12. We are located in the inner city suburb of Toowong, Brisbane. An SMT education focuses on an international curriculum to help students reach their full potential. This is achieved through a rigorous academic programme, the holistic education of every student and the outstanding commitment of its staff.

Students commencing in Year 7 study the International Baccalaureate Middle Years program, whilst students commencing in Year 10 study a Pre IB Programme before commencing the Diploma in Year 11. The benefit of offering a continuing Years 7-12 programme is that students experience continuity of an educational experience, including maintaining friendships and teaching networks.

Some of the Benefits of an SMT Education

- Outstanding House Based Pastoral Care system in a caring and safe environment
- Outstanding and consistent academic results
- Outstanding STEM facilities with wireless connection
 - Creative, modern learning centres and flexible learning spaces
 - A broad liberal curriculum tailored for internationally minded future focussed students
 - Excellent Sports, Music and Arts Facilities
 - A wide selection of co-curricular opportunities
 - A holistic education tailored to meet the needs of all students
 - University partnerships that offer exciting and rewarding opportunities for our students
