

# *Raising Your Child in a Digital World*

WITH  
**Dr Kristy**  
GOODWIN

Dr Kristy Goodwin, a digital parenting educator, author and researcher (& mum who also deals with her kids' techno-tantrums), translates the latest research about how technology is shaping childhood into essential information for confused and concerned parents. Dr Kristy helps parents make informed decisions about how to best manage screen-time at home (so that it doesn't always end in 'scream time')... and no she won't suggest that you ban the iPad, or unplug the TV!

Parents will understand the latest risks to kids' online safety (including current cyber-safety threats, pornography exposure, introduction of phones and social media), as well as the health and learning

implications of young kids (4-12 years) growing up in a world of screens. Kristy will share her simple formula to calculate healthy screen-time limits and will arm parents with a host of strategies and ideas to prevent techno-tantrums and to help kids develop healthy technology habits. Dr Kristy will explain how technology is impacting kids' learning, sleep, social, language, play, physical skills and their vision, hearing and posture and will arm parents with practical strategies about how to best raise kids in a digital world. Parents will learn how to get the most out of their child's screen-time so they can finally ditch the guilt and guesswork.
